

In(advert)ent Onboarding

Thanks for participating in our study! Please follow the steps below to get onboarded to our system to proceed with the study. Please feel free to send an email to intervenr_ads_study@cs.stanford.edu if you encounter any issues.

Follow the step-by-step instructions ↓

1 DOWNLOAD THE ZIP FILE

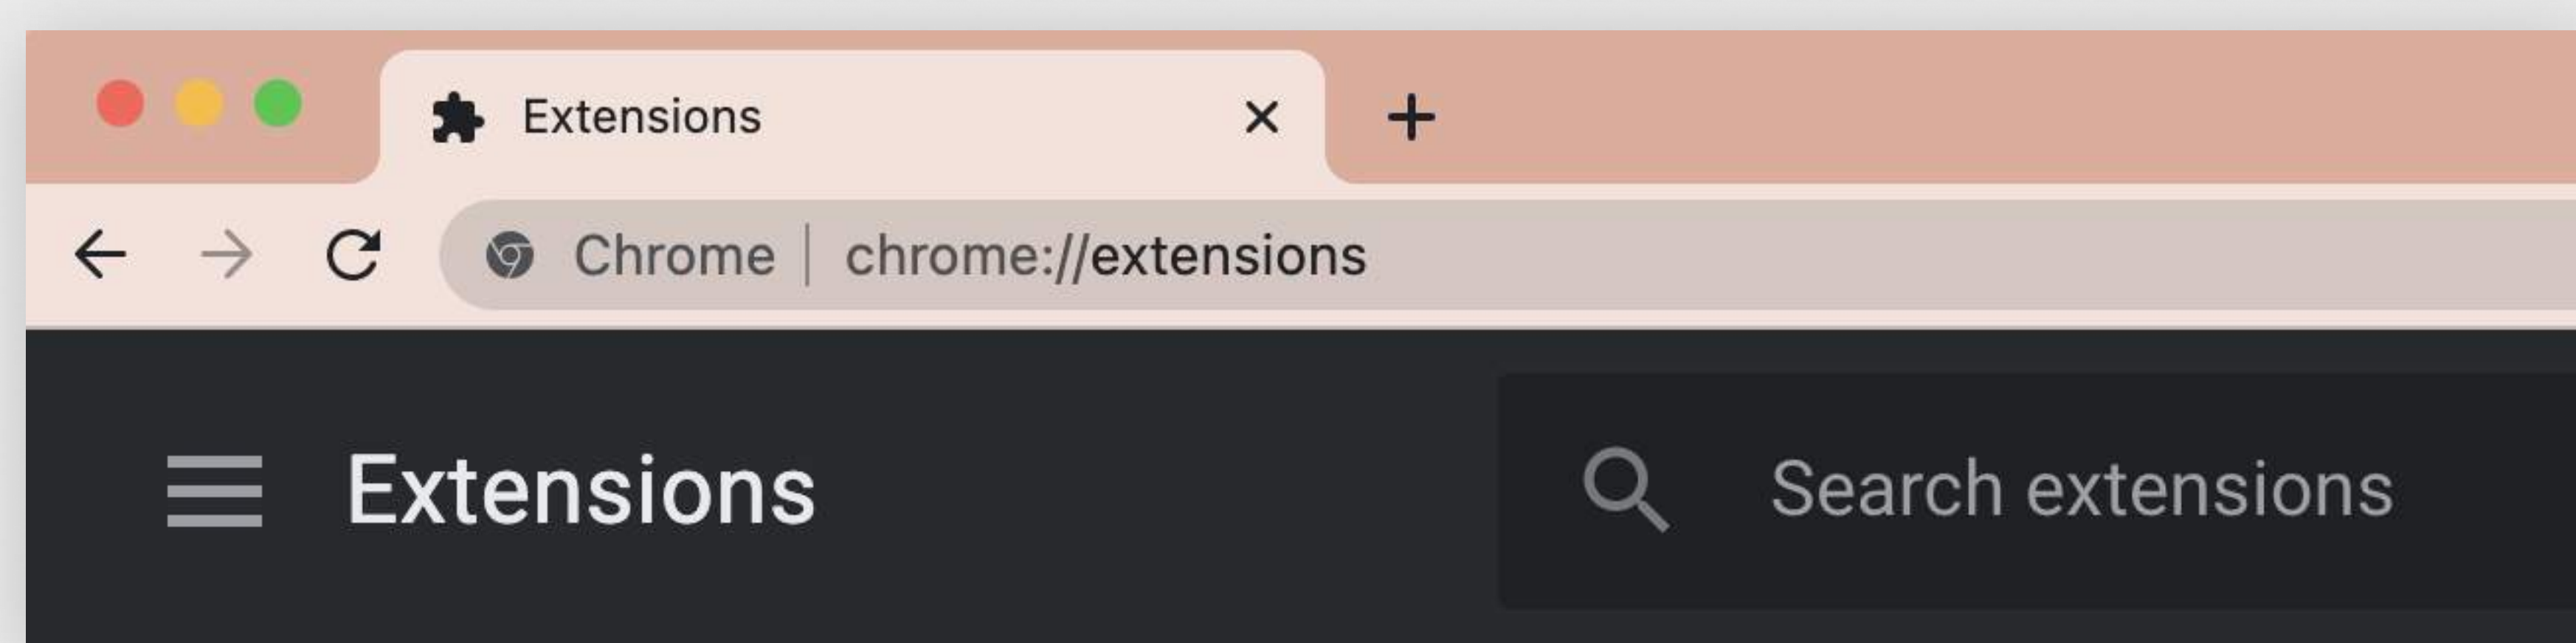

Click on [this link](#) to access and download the extension.

2 UNZIP THE FILE BY DOUBLE CLICKING ON IT

If you're on Windows OS and facing trouble unzipping, right click and select "extract file".

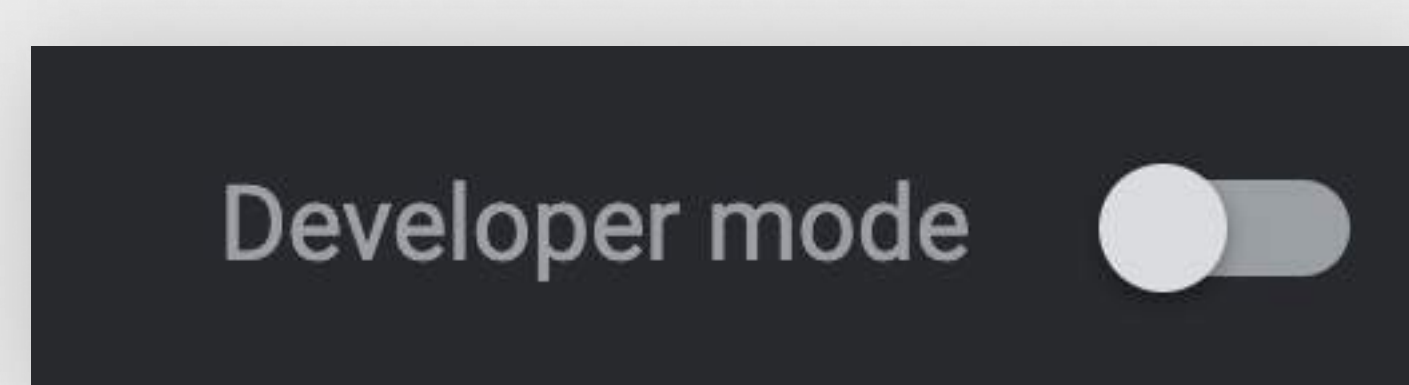

3 OPEN YOUR BROWSER & SEARCH "chrome://extensions"

The extension works only on Chrome.

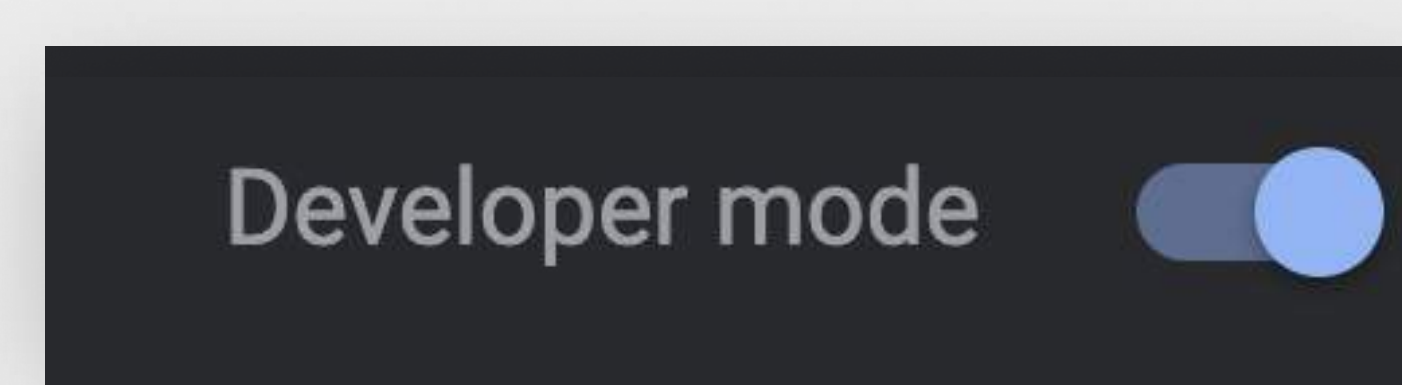

4 TURN ON THE DEVELOPER MODE IN THE TOP RIGHT CORNER

Toggle the button on the top right corner so that the white circle is on the right side.

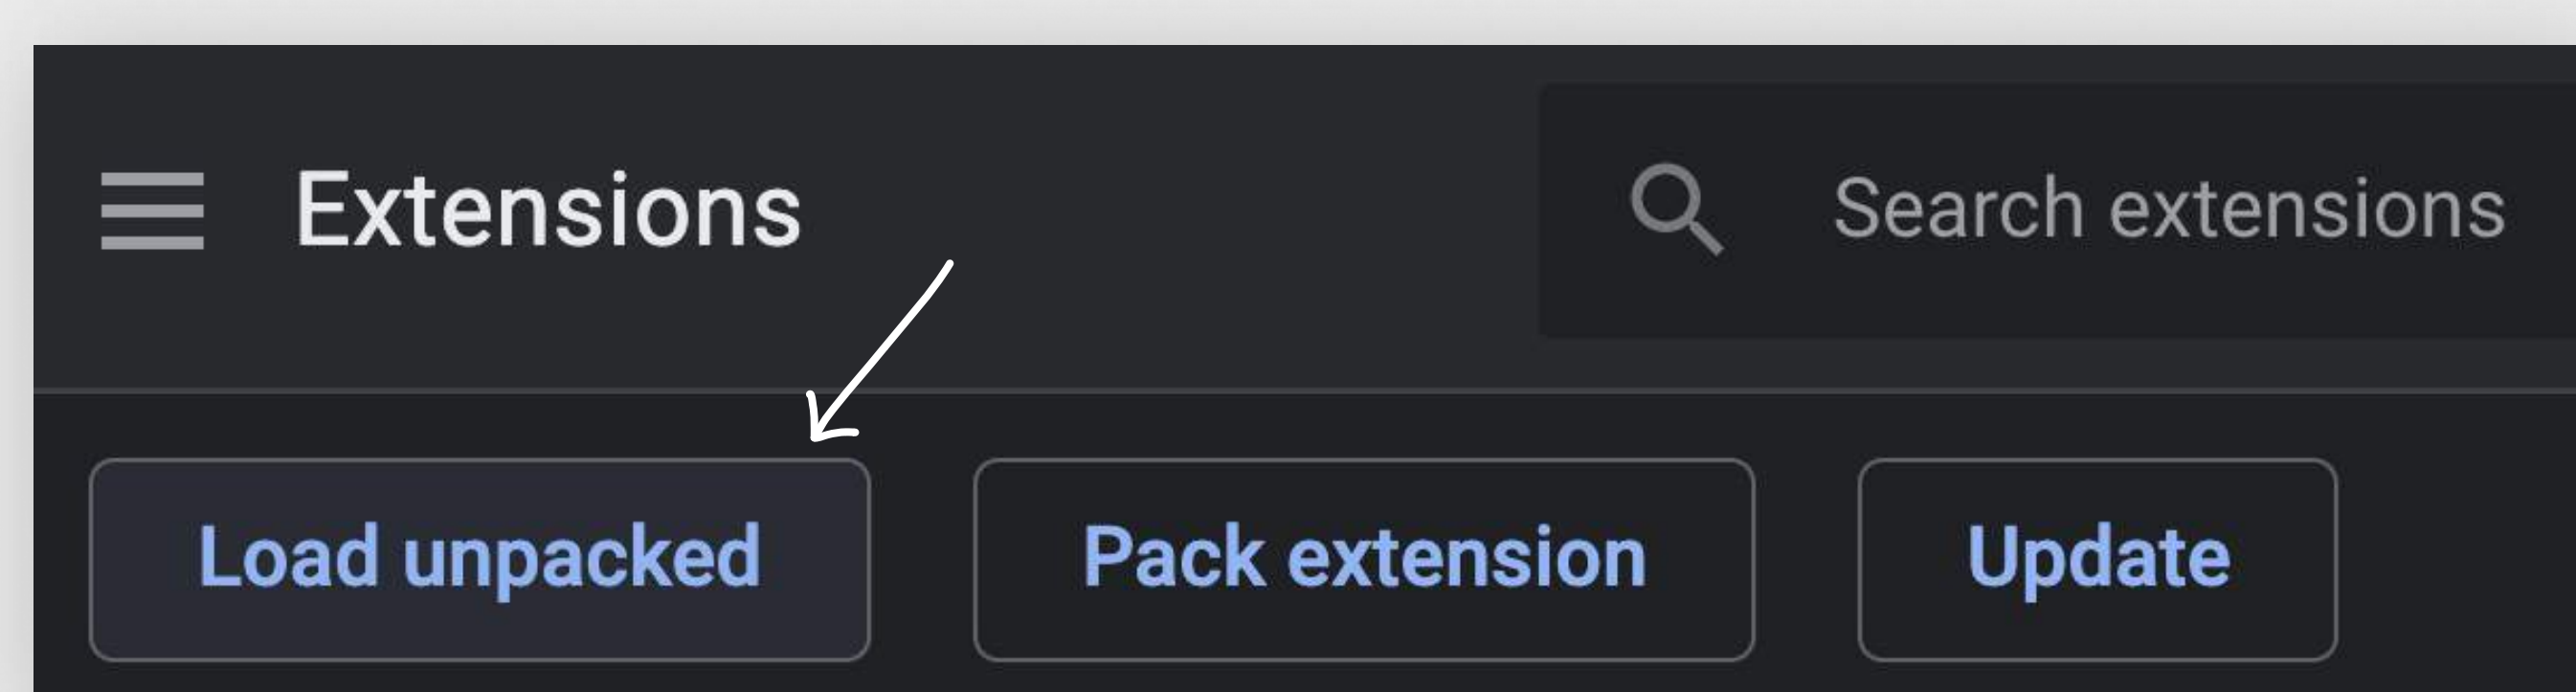

before

after

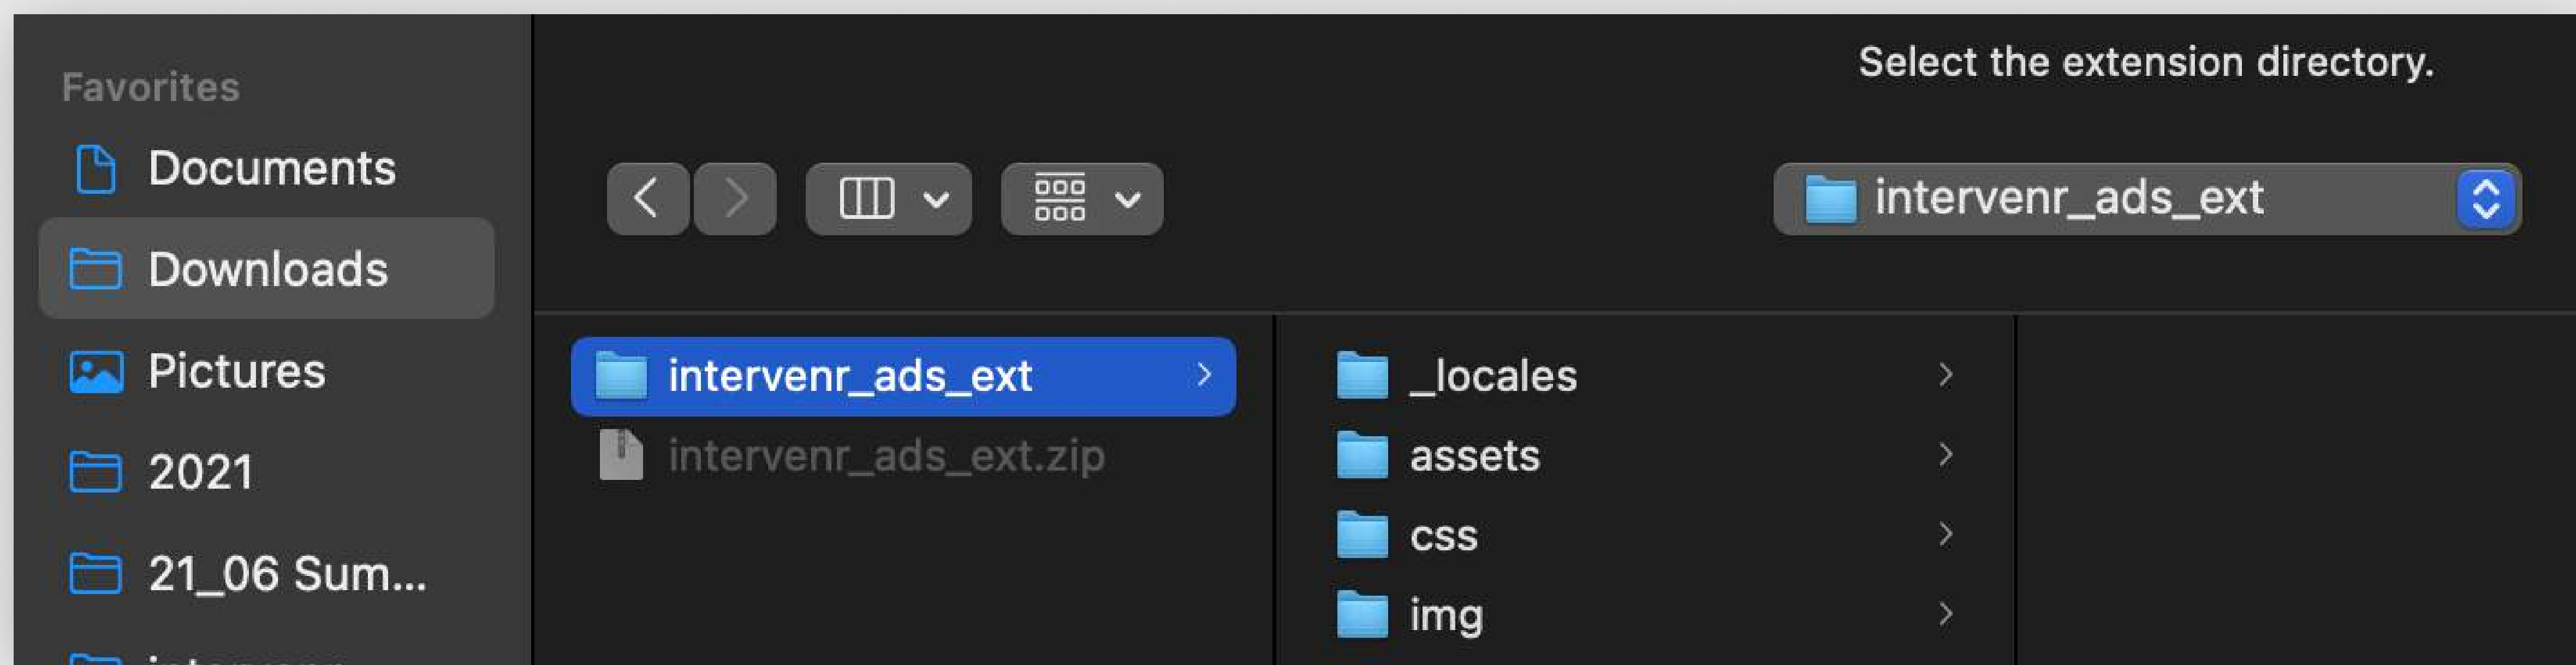

5 CLICK ON "Load unpacked" IN THE TOP LEFT CORNER

Once clicked, you should see a pop-up of the file directory.

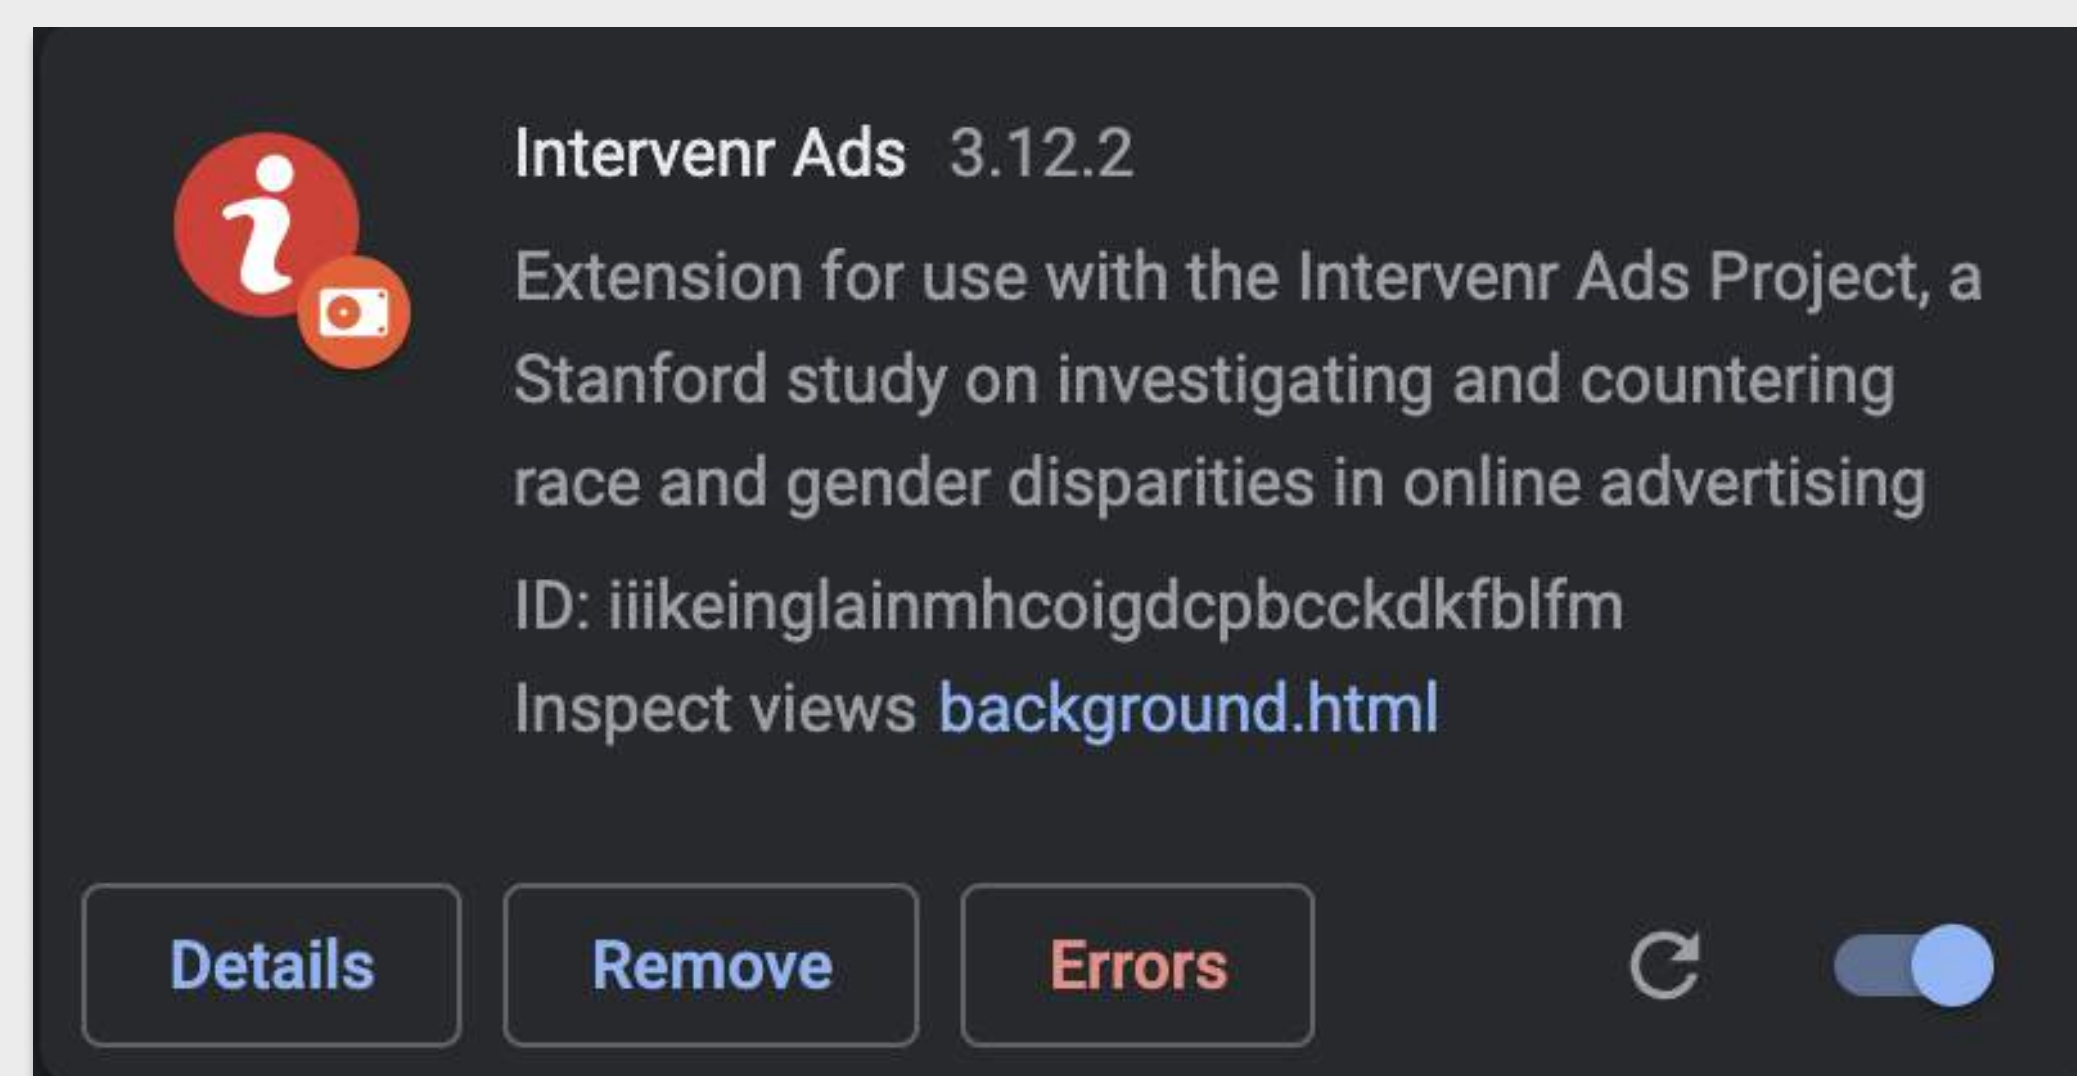

6 SELECT THE EXTENSION FOLDER FROM POP-UP MENU

Go to your Downloads folder and click on the folder named “intervenr_ads_ext” (the “unzipped” folder from Step 2)

7 YOU SHOULD NOW SEE THE EXTENSION ON THE PAGE

Verify that you see the Intervenr Ads extension and that the toggle is blue and on the right side (meaning the extension is enabled).

Note: please disregard the “Errors” button since the error (“Manifest version 2 is deprecated”) is not related to our study and does not impact the extension’s functionality.

8 PRESS THE PUZZLE ICON TO PIN THE EXTENSION

Click on the puzzle icon the top right corner of your browser. Then, click on the pin icon to the right of the ‘Intervenr Ads’ Extension. When the red “i” logo is at the top of your screen, your extension is set up!
